RISHABH GOSWAMI

Student at Ashoka University

PROFILE

Passion and diligence are two traits that I believe most reflect me as an individual. It is my belief that this is the key to being successful in any endeavour that one set's their mind to. I love to generate new ideas and devise feasible solutions to broadly relevant problems. I enjoy embracing the lessons learned from failure, stand up and continue to grow.

I am an aspiring Computer Scientist capable of reading and programming in the Swift, C++, JavaScript, SQL (PostgreSQL), and HTML5/CSS programming languages
